Syndicate Activity

FAR – Identifying Key Financial Statement Items and Common-Size Horizontal Analysis

Access the annual reports of the following companies as given on their websites:

Sasini - Year ended 30 September 2025

Absa Bank Kenya - Year ended 31 December 2025

East African Breweries - Year Ended 30 June 2026

Total Kenya – Year Ended 31 December 2025

Standard Media Group – Year Ended 31 December 2025

Centum – Year Ended 31 March 2026

Safaricom - Year Ended 31 March 2026

The class should allocate the annual reports to a syndicate in a random and democratic way, such that a syndicate should work on only one report, i.e. one report per syndicate. No two or three syndicates should work on the same organization.

Thereafter, a syndicate should do the following:

1. Write a three-page Word report (Times New Roman, font size 12 and 1.5 paragraph spacing) on the following items:

- One paragraph, half a page of a summary of the organization.
- Another paragraph of the types of reports (e.g. sustainability and corporate governance) that form part of the annual report (Do not provide details of the reports, just a list of the reports included in the annual report).
- Provide a summary of the key financial statements' elements of incomes, expenses, assets, liabilities, capital and cash flows of the organization (a maximum of 4 items in each category).

Present, for each category, a table as follows:

E.g. Incomes

Income item	2024	2025	\$ & % Change (Increase or decrease)	Possible reason(s) for the change
	\$m	\$m		
Revenue	200	220	+\$20m (10%)	Increase in prices/quantities
Other incomes	50	60	+\$10m (25%)	Disposal of assets at a profit

Repeat the same analysis for the other financial statement elements. For those handling 2026 reports, the comparative should be equivalent date in 2025.

Use the group/consolidated figures where relevant. NB) be guided by the size of the figures, e.g., for assets take the top 4 items in the statement of financial position. DO NOT give totals for assets or liabilities or capitals. Just the individual items.

2. Each syndicate should then prepare a PowerPoint presentation (Only 10 slides), to present in class. The slides should have the following:

- Slide 1: Name of the organization and syndicate members
- Slide 2: A Summary of the organization
- Slide 3: A list of the reports in the annual report
- Slide 4: Income items as per the above table
- Slide 5: Expense items as per the table above
- Slide 6: Asset items as per the table above
- Slide 7: Liability items as per the table above
- Slide 8: Capital items as per the table above
- Slide 9: Cash Flow Items as per the table above
- Slide10: Overall conclusion.

The report (**30 Marks**) and the presentation (**20 Marks**) total 50 Marks

The date of presentation and submission will be agreed upon in class.
